

Present with clarity. Deliver with confidence.

Present
VIRTUALLY
With Impact

What works with
Virtual
presentations?

LEVERAGE WHAT WORKS IN PERSON....

**Create structure
for your audience
(open, body,
close)**

**Use transitions to
tie your content
together**

**Increase vocal
energy to
engage and
convey
confidence**

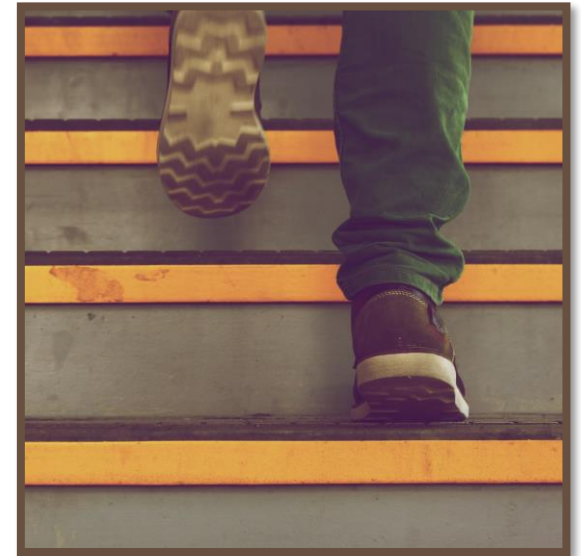

....AND ADJUST HOW YOU ENGAGE

**Create
Variety**

**Get them
Thinking**

**Encourage
Action**

Create Variety

Audio variety

- Stand up when presenting
- Add another presenter or moderator

Visual variety

- Increase the number of slides
- Use more images/less text
- Consider videos where appropriate
- Have the camera capture your gestures

Get Them Thinking

Ask rhetorical questions

- *A question you might have is, What does that mean to us?*
- *You might be wondering, How did that happen?*

Place them in hypothetical scenarios

- *Imagine you are one of our clients and...*
- *Take a moment and consider what it would be like if...*

Encourage Action

- *You might want to write down this extra tip that isn't on the slide.*
- *I'll ask you to look at the left side of the screen...*
- *I encourage you to look at page 5 of the document.*
- *Let's get a pulse of the group with a poll...*
- *In chat, capture your quick reaction to this approach.*
